## product profile

### Automating Corporate Document Compliance

AXS-One Compliance Platform 3.0 featuring the AXS-One Retention Manager delivers a single platform for the compliant management of all corporate records. The AXS-One Compliance Platform is licensed on a server plus number of users-supported basis, with scalable pricing reflecting organization size. AXS-One offers the solution to new and existing customers directly and through strategic distribution partners.

#### AXS-One Compliance Platform 3.0

The AXS-One Compliance Platform is an integrated, scalable solution for the secure archival, management, integration and audit of all corporate records, regardless of originating application or platform. The platform provides organizations with a single, comprehensive environment for viewing all records in records repository. More than 250 disparate document and data types including email, Instant Messaging, ERP (such as SAP), electronic print streams, Office documents (such as Microsoft Word, Excel and Adobe PDF), images and voice are securely captured, indexed and stored within the Platform's central archive. Supervision and discovery components allow companies to confidently address regulatory guidelines, such as SEC17a-4 and NASD 3010, and to facilitate their current and future corporate governance, legal discovery and litigation support efforts. The solution's Web services and XML transformation capabilities enable stored content to be utilized within business applications such as e-document delivery, online dispute resolution and reconciliation of financial data.

#### AXS-One Retention Manager

AXS-One Retention Manager is the latest and most notable new component within the AXS-One Compliance Platform 3.0. Retention Manager enables organizations to securely manage records based on their corporate policies and file plans and to enforce the retention, disposition and secure destruction of all corporate records, regardless of originating document or data type. Key functionality, such as legal holds, case management and full end-to-end audit of processes and policies enable organizations to apply real-time compliant controls through the life cycle of each record.

#### About AXS-One

AXS-One is a leading provider of Records Compliance Management solutions. AXS-One's technology has been critically acclaimed as best of class and delivers digital archiving, business process management, electronic document delivery and integrated records disposition and discovery for email, instant messaging, images, SAP and other corporate records. Founded in 1979 and headquartered in Rutherford, New Jersey, AXS-One has offices worldwide including in the US, Australia, Singapore, United Kingdom and South Africa.
